

Fun with ECFE!

Circle of Security Parenting Program

Parent/Child (Ages 2-5) ECFE Program

The Circle of Security Parenting Program turns parent and child relationships into a roadmap. Become confident in what kids need from you, learn about making connections, not just giving attention. Use your relationship to change behavior. Learn about the needs your child is trying to tell you and how to respond in a way that strengthens the caregiver-child relationship. This is a separating class as parents will be meeting in the room next to the children. The 5 child sessions will be filled with exploring literature, crafts, play time (gym and playground included) and a snack.

Early Childhood Screening

Early Childhood Screening is a FREE check of:

- * Height and Weight
- * Vision and Hearing
- * Immunization Records
- * Developmental Assessment that include: communication, motor, cognitive and social-emotional skills

Scoring is based on the child's age at the time of the screening, so being older does not give them an advantage.

Screening is required by state law before kindergarten.

That makes is sound as though, a child should be screened right before kindergarten. NOT SO!

Screening is most valuable for three- four year olds.

If a child's developmental delays are not identified until they are about to enter kindergarten. They have missed out on one-two years of early childhood services that could make a huge difference to their school success!

If you are new to the district, if your child is 4, or if your child will be starting kindergarten within the next two years and has not been screened...
