#### "WITCHES VS PRINCESSES"

The Witches have a contest to see who can capture the most Princesses. The winner will receive a magical pony. But can the Princesses outwit the Witches? Kate just wanted to do something great with her life & the author wants to write the opinionated narrator out of the script! This is a comedy with lots of wacky fairytale characters, but hidden in the humor is a good lesson.

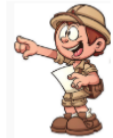

#### "Sticks and Stones: A Fable"

Three travelers set up a community based on faith, hope, and joy. When they attempt to welcome newcomers, they learn that they need to teach their new friends what "community" means by showing them hospitality. Students will receive a schedule at auditions.
