3D Printing for the Hobbyist & Home Repair Enthusiast

Are you interested in learning more about the fun hobby of 3D printing? Are you tired of throwing things away because of a broken part that you wish you could just make? Join us as we explore low priced 3D printing solutions for home repair and hobby usage. We will also learn the 3D printing process and students will get hands on experience developing in **TinkerCAD** a Free online three dimensional model rendering software program. No special CAD skills are needed to take this class, however basic computer skills are needed.

Please bring a laptop computer with you to class if you have one. If you don't have a laptop one will be provided.

Basic Bike Maintenance

Never again let a flat tire strand you on the road or allow a skipping chain to ruin a ride. If you ride a bicycle, then you need this class! In this informative session you will learn how to lube a chain, fix a flat tire in record time, and make other minor adjustments to your bicycle that will keep you riding smoothly and prolong your bike's life. Our expert Bike Mechanic will also cover proper bike and helmet fitting and what to look for when searching for your next bike. No experience necessary! Note that this is a demonstration class; please do not bring your bike.

Date: Tuesday, April 9 **Class Code:** SP1008

Instructor: Brandon Michaelis (Expert Bike Mechanic)
