

2019-2020 2 & 3 YEAR OLD PRESCHOOL PREP

2 and 3 Year old Preschool Prep Program

Your little ones are changing and discovering more each day! They are curious and looking to explore the world around them.

Our program will engage your child through music, art, movement and socialization. We provide an environment that will excite any learner while building a positive foundation that sets the tone for school years to come.

During each class parent and child will enjoy playtime and circle time together before giving your child opportunities to gain confidence and a sense of independence when parents separate for a portion of the evening. During this time parents will meet with a Parent Educator to discuss child development and gain support from other parents while students will continue explore through Teacher guided experiences.
