

Elementary Team Robotics Level I Camp

Entering Grades 4&5

We are very excited to offer our **Summer Elementary Team Robotics CAMP!** Students will be paired up and tasked with building their robot to compete against the other campers. Each student will be involved in robot building, operating and competing. No prior experience other than a willingness to learn is required. The final CAMP date parents are invited to attend the competition from 1:30 pm - 3:00 pm. **The Elementary Team Robotics CAMP is only for students who have not already completed the Elementary Team Robotics Level I Program. See Level II class information if you have already completed the Level 1 Program.**
